

GIVE THEM WINGS OF HAPPINESS

ROGATIONIST

ACADEMY

CBSE SCHOOL

Happy children are perhaps the fastest learners. Considering this, we have laid the foundation for your child with a suitable curriculum and stimulating environment that encourages their innate curiosity and free expression. Before you know it, they will be soaring in life.

“The harvest is plentiful, but the labourers are few;
therefore ask the Lord of the harvest to send
outlabourers into his harvest.”
Matthew 9:37-38

Our history

Sacred Rogationists Community by St. Hannibal Maria Di Francia was set up to provide education of a superior quality, with better standards and values. While inculcating modern principles and goals of education, Rogationists have held on to the best of the past, its culture, world-view and humanity.

What is true education?

Education today prepares children for a highly competitive world. Yet, true education helps children become complete adults through holistic development. A healthy mind and body requires nurture and discipline. This means guidance from early childhood. And that's what we at Rogationists offer to your kids– an exciting journey through life and learning.

Our Vision

We mould children by offering an international standard of true education. We also make sure they develop into responsible adults with self-confidence and strength who give back to the society. It is with this aim in mind, we have established the CBSE syllabus-oriented Rogationists Academy at West Desom Aluva.

Our mission

We hold on to the highest human values as we inspire the emotional, physical and mental development of children. Most importantly, we encourage the innate talents of children and ask them to express themselves. We believe education is not just knowledge but wisdom of a higher order.

ARTIST, SCIENTIST, ATHLETE

WE WILL CHEER THEM ON.

Every child holds promise. That's why we, at Rogationist Academy Aluva, make learning fun while providing a solid foundation for your child. Our advanced curriculum, trained faculty and child-friendly infrastructure will inspire your child to grow into a happy, healthy adult, ready for life.

Learning becomes fun here

Warm, loving and caring, our teachers are the guiding lights for the children. Also, they use innovative training methods and technology efficiently, which gives them the upper hand to help children at each stage of learning.

A support system based on love

A student – teacher ratio of 15:1. An atmosphere of creativity. A chance to develop analytical skills. Group and individual activities. Workshops, presentations and field trips. Parents don't need to look further for their children's development.

More than just classroom learning

Beyond the confines of the classroom, there is a whole world out there for the children. Where they can develop their talents and interests fully. So a stimulating environment and the layout necessary for such growth is made available.

Vocal - Classical and Western Music

Theatre Arts - English & Malayalam | Quizzing | Nature Club

Musical Instruments – Veena, Tabla, Flute, Keyboard, Guitar, Drums and Violin
